

Sheltowee Trace Resupply Options and Trail Angels

While we attempt to verify the information contained in this document, **you must make contact with these organizations, businesses, or individuals before you ship to let them know your package is coming and to confirm they still wish to handle your box.**

All packages should be marked with "Name, Hold for Sheltowee Trace Thru Hiker. Expected date of pick up: _____."

If mailed to a Post Office, packages should be marked for General Delivery unless being sent to a specific person or organization. All packages should, again, have your name, "Hold for Sheltowee Trace Thru Hiker" and anticipated date of pick up. Please give all trail angels and volunteers an appropriate amount of notice before requesting their services.

*mile marker according to the current official Sheltowee Trace maps by Outragegis. Please refer to our list of major trailheads with their mile markers (available on the website under "hiker resources").
